Projects

● HotelierPro :

Private Contribution

In the frontend team, I utilized Next.js, Tailwind CSS, and ShadcnUI to enhance interfaces, align projects with modern design, and exceed user expectations. Contributions elevated frontend experiences with intuitive and visually appealing applications.

● Portfolio:

Personal Project

My portfolio project showcases Next.js, TypeScript, Tailwind CSS, Framer Motion, and ShadcnUI for dynamic, responsive, and animated interfaces. Proficiency in the latest technologies ensures a commitment to staying at the forefront of frontend development.

● Discord Clone:

Open Source Contribution

Developed with React and Bootstrap, the DiscordClone project showcases a commitment to creating functional and visually pleasing web applications. The efficient use of React and Bootstrap delivers a familiar and enjoyable communication experience for users.

About Me

I specialize in front-end development and web design, bringing appealing designs to life through functional websites. I thrive in collaborative environments, consistently delivering high-quality solutions. My varied project experiences have boosted my confidence for bigger tasks, improving teamwork. These opportunities have honed my skills, promoting code quality and best practices.
